About Healthy Home Habitats

Affordable, Environmentally-Friendly Landscape Designs

" You need a better landscape. We need a healthier world.

I show you how to do both at your home.

I do this without a fancy plan, without a fancy designer, from your ideas, on your schedule, with your budget. We create a strategy with resources. I can come to your house with tools to help you figure out which plant is a weed, plant your plants, answer questions, discuss what makes you crazy and what brings you joy at your home, building your knowledge, creating your perfect habitat. We can also show you other DIY ways to save money at home. Save money on water. Save money on heat. Save money on electricity. And best of all, your savings help collectively heal our world."

- Michele, Owner of Healthy Home Habitats

ELM CITY COMPOST

INITIATIVE

Our Mission: Bring affordable & sustainable food waste collection to residents & businesses in Keene while educating the community on sustainable waste practices.

★ Here at ECC we want you to be more sustainable in all areas of your life, not just in your waste management.

That is why we have partnered with

Healthy Home Habitats!
